TeeDeup is a TeeShirt Design Software which provides a set of features to automatically design a t-shirt graphic: TeeDeup takes the design from a vector file such as Photoshop, CorelDraw, Illustrator, Inkscape, etc. and outputted into PNG or SVG formats. Using this TeeDeup outputted graphic as the base layer you can edit various characters, graphics, etc. on the design in the TeeDeup's window. After you successfully complete the design with the TeeDeup, you can export the design as an image (JPG, PNG, BMP, GIF, SVG, etc.) which you can use as a template to print your own design. All designed by TeeDeup are outputted by a commercial high quality design software, so that you can't miss any tiny detail in your design. You can also export the entire TeeDeup graphic to PDF format for printing out of a TeeDeup T-Shirt design. Features: 1. Graphics Design - TeeDeup offers three methods to design your graphic, Draw, Fill and Design. 2. Text - You can use the text tool of TeeDeup to add texts on your graphic. 3. Paint - You can also add a new layer to paint your graphic on any objects you need, such
