an active reports 7 95 crack! Please make sure you post a link to the file you want to share, not just the name of the file. Fos expression in the midbrain periaqueductal gray matter after cyclophosphamide-induced facial paresis in the rat. In this study, the authors describe a widespread induction of Fos-like immunoreactivity in the midbrain periaqueductal gray matter (PAG) in rats 2 weeks after a single administration of the chemotherapeutic agent, cyclophosphamide (CYC). This effect is time-dependent and appears to be a direct result of the acute CYC-induced facial paralysis. Q: Error trying to save data to SQL Server Compact Edition I'm trying to save data from a DataGridView to a SQL Server CE database. I have the following method to store values. private void storeLocation(DataGridView item) { string path = item.DataBoundItem.ToString(); string sql = @"INSERT INTO Locations(Locations) VALUES(@name)"; using (SqlConnection conn = new SqlConnection("Data Source=|DataDirectory|\c_db.sdf")) { conn.Open(); SqlCommand cmd = new SqlCommand(sql, conn); cmd.Parameters.AddWithValue("@name", path); cmd.ExecuteNonQuery(); } } However I get the following error when I run this code. Cannot initialize a new instance of the storage engine for SQL Server Compact Edition. Ensure that the ADO.NET provider for SQL Server Compact Edition is properly registered on the application. See the end of this message for more details. This is odd because I'm using SQL Server CE 4.0 and VS2010. Any ideas? A: Make sure you've installed and registered the SQL Server Compact 3.5
