Do you have any material about Life Line 4000 to be reviewed? My contact is ErnstHegewisch (e-mail: ). A: The Life Line 4000 will be built by Thales in France. The manual is available for free download at www.lifelinesoftware.com. Edit: Here's a web search for a Life Line 4000 field manual. A: A: The life line is a distributed power plant system made by Navistar. It can generate power through a diesel engine, gas engine, generator or even wind turbines. The life line is used primarily to power facilities and mining operations. There are no standard output that is specified for the life line. The present invention relates to a new and distinct cultivar of Sutera plant, botanically known as Sutera hybrid, hereinafter referred to by the cultivar name xe2x80x98Beskerexe2x80x99. The new Sutera is a product of a planned breeding program conducted by the Inventors in Hinnerup, Denmark. The objective of the breeding program is to create new Sutera cultivars with numerous attractive flowers. The new Sutera originated from a cross made by the Inventors of the Sutera cultivar xe2x80x98Burbotaxe2x80x99, disclosed in U.S. Plant Pat. No. 6,039, as the female, or seed, parent with a proprietary selection of Sutera identified as code number S4.39. The cultivar xe2x80x98Burbotaxe2x80x99 has yellow-colored flowers. The new Sutera was discovered and selected by the Inventors in December, 1999 from within a population of plants of the parent selection on a single plant selection, in Hinnerup, Denmark, as a single flowering plant within the population. Asexual reproduction of the new Sutera by terminal cuttings taken at Hinnerup, Denmark by the Inventors, has shown that the unique features of this new Sutera are stable and reproduced true to type in successive generations. The cultivar xe2x80x98Beskerexe2x80x99 has not been observed under all possible environmental conditions. The phenotype may vary somewhat with variations in environment such as temperature and daylength, without, however, any variance in
