The magical world of wizardry and witchcraft is an alternate reality far removed from the modern world. So when trouble erupts, it is for the first time in fifty years that the magical community is saved from extinction by a group of ordinary men and women who decide to change their world for the better by assembling the world's greatest wizard Harry Potter. From producer Steven Spielberg comes Harry Potter and the Sorcerer's Stone, a magical adventure like no other. Harry goes on a journey of discovery to prove his worth in a Muggle world that seems mysteriously altered. Harry also encounters Gilderoy Lockhart, an overconfident, underqualified teacher who becomes a personal friend. But Harry would be unaware of the true cost of his adventures.
